Dear Generator:

The State of Texas is preparing to submit the 1995 Biennial Report to the Environmental Protection Agency (EPA). It is mandated that the report include all Large Quantity Generators (LQG) for the reporting year. Our records indicate that your facility generated between 1.1 and 13.2 tons of hazardous waste for the 1995 reporting year. This quantity could place your facility in the LQG category. ***If during 1995 your facility generated 1.1 tons or more of hazardous waste in any one month, then your facility is considered a LQG for the Biennial Report.*** Please indicate below whether or not your facility was a LQG for the 1995 reporting cycle.

LQG ✓ NOT LQG____ Authorized Signature 6/11/96 Date

Please return this letter to the TNRCC, Waste Evaluation Section, Reports Management Team MC-129, P. O. Box 13087, Austin, TX 78711-3087 by June 14, 1995. If you have any questions regarding this letter, please feel free to call the Reports Management Team Staff listed below:

Caroline Wersterfer	(512) 239-6764
Kathleen Trachta	(512) 239-6855
Janet Cornelissens	(512) 239-6847

Thank you in advance for your assistance in providing the EPA with a complete, accurate and timely report.

Sincerely,

Patti Peterson
