Boerne, TX 78006-1527

Subject: Review of Road Construction Environmental Assessment,  
Camp Stanley Storage Activity (CSSA), Boerne, TX

Dear Mr. Enloe:

The Camp Stanley Storage Activity (CSSA), McAlester Army Ammunition Plant, US Army Field Support Command, Army Materiel Command, U.S. Army, is preparing an Environmental Assessment (EA) to evaluate the potential environmental consequences associated with widening the existing perimeter road and several select interior roads at CSSA, and improving the drainage ways associated with the affected roads. In accordance with Executive Order 12372, *Intergovernmental Review of Federal Program*, please identify specific issues or topics of environmental concern (to include potential permits or other requirements) that should be addressed in the EA. Attached is the Description of the Proposed Action and Alternatives (DOPAA) for your reference.

In addition to identifying resources within your agency's purview that may be potentially impacted, we also request any point-of-contact information or relevant documentation that is available that would assist in preparing the EA.

Please provide any comments or information by May 24, 2006. Your assistance in providing information is greatly appreciated. If you have any questions, please feel free to contact Glare Sanchez, Environmental Program Manager, at (210) 698-5208.

Sincerely,

A handwritten signature in black ink, reading "Jason D. Shirley".

Jason D. Shirley
