Off-Post Quarterly Groundwater Monitoring Report - Approval

Dear Mr. Murphy:

The Texas Commission on Environmental Quality (TCEQ) has reviewed the report entitled *Final September 2002 Off-Post Quarterly Groundwater Monitoring Report*. The report was received by the TCEQ on January 22, 2003.

The report fulfills the groundwater quarterly reporting requirements of CSSA's Data Quality Objectives. The TCEQ does not have any comments regarding the results of the off-post groundwater information. The TCEQ, however, has one suggestion in resolving whether the methylene chloride is actual groundwater contamination or laboratory artifact. The TCEQ suggests the collection and analyses of a field blank and a laboratory blank samples.
