Re: Camp Stanley Storage Activity, Boerne, TX;
TCEQ SWR No. 69026;
Solid Waste Management Unit (SWMU) Building 40;
SWMU-40 - Approval of closure report

Dear LTC Shirley:

The Texas Commission on Environmental Quality (TCEQ) has reviewed the report entitled *Building 40 Container Storage Area Closure Report* dated September 2003. The report was submitted with your letter dated September 26, 2003 and received by the TCEQ on October 7, 2003. The report indicated that closure activities have been completed according to the TCEQ Risk Reduction Standard (RRS) No. 1 pursuant to Title 30 Texas Administrative Code (TAC) Chapter 335 Subchapters A and S.

In order to attain RRS No. 1, all industrial solid waste and municipal hazardous waste and waste residues must be removed or decontaminated from affected media (i.e., soil, surface water, groundwater, air) to naturally occurring background levels or the Practical Quantitation Limits (PQL), provided that the person demonstrates that lower quantitation limits are not possible when PQLs are greater than background.

The TCEQ has completed a review of the final report. Based on the information contained in the report, it appears that closure of SWMU Building 40 attained RRS No. 1. SWMU 40 is released from deed recordation and post-closure care requirements.

Please be aware that it is the continuing obligation of persons associated with a site to ensure that municipal hazardous waste and industrial solid waste are managed in a manner which does not cause the discharge or imminent threat of discharge of waste into or adjacent to waters in the state, a nuisance, or the endangerment of the public health and welfare as required by 30 TAC §335.4. If the actual closure fails to comply with these requirements, the burden remains upon Camp Stanley Storage Activity to take any necessary and authorized action to correct such conditions.

LTC Shirley

A TCEQ Region 13 San Antonio field inspector may review your final closure report and conduct a closure inspection of the site.

Questions concerning this letter should be directed to my attention at (512) 239-2371 or email me at srayos@tceq.state.tx.us. When responding by mail, please submit an original and one copy of all correspondence and reports to the Corrective Action Section at Mail Code MC-127 with an additional copy submitted to the TCEQ Region 13 Office in San Antonio. The TCEQ Solid Waste Registration No. 69026 should be referenced in all submittals.

Sincerely,

Sonny Rayos, P.G., Project Manager
Team I, Corrective Action Section
Remediation Division
Texas Commission on Environmental Quality
