TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

January 26, 2006

Camp Stanley Storage Activity
25800 Ralph Fair Road
Boerne, TX 78015-4800
Attention: LTC Jason Shirley, Installation Manager

Re: Camp Stanley Storage Activity (CSSA), Boerne, TX
TCEQ SWR No. 69026
Building 40 less than 90-day Container Storage Area NOR 001
Letter dated October 11, 2005 - Approval of closure to RRS No. 1

Dear LTC Shirley:

The Texas Commission on Environmental Quality (TCEQ) received your letter dated October 11, 2005. Your letter provided additional information concerning the closure of a less than 90-day container storage area (Notice Of Registration Unit 001) at Building 40 in response to TCEQ letter dated February 23, 2004. The February 23, 2004 letter requested additional information concerning the report entitled *Building 40 Container Storage Area Closure Report* dated September 2003. Your letter enclosed analytical reports which detailed that cleanup and closure were conducted according to the TCEQ Risk Reduction Standard (RRS) No. 1 pursuant to Title 30 Texas Administrative Code (TAC) Chapter 335 Subchapters A and S.

In order to attain RRS No. 1, all industrial solid waste and municipal hazardous waste and waste residues must be removed or decontaminated from affected media (i.e., soil, surface water, groundwater, air) to naturally occurring background levels or the Practical Quantitation Limits (PQL), provided that the person demonstrates that lower quantitation limits are not possible when PQLs are greater than background.

Based on the information contained in CSSA letter dated October 11, 2005, it appears that closure of the container storage area (NOR 001) located at Building 40 attained RRS No. 1. The unit is released from deed recordation and post-closure care requirements.

A copy of this letter has been forwarded to the TCEQ Registration and Reporting Section to update your NOR. For questions regarding the NOR, please contact the Registration and Reporting Section at (512) 239-6847.

Please be aware that it is the continuing obligation of persons associated with a site to ensure that municipal hazardous waste and industrial solid waste are managed in a manner which does not cause

the discharge or imminent threat of discharge of waste into or adjacent to waters in the state, a nuisance, or the endangerment of the public health and welfare as required by 30 TAC §335.4. If the actual closure fails to comply with these requirements, the burden remains upon Camp Stanley Storage Activity to take any necessary and authorized action to correct such conditions.

A TCEQ Region 13 San Antonio field inspector may review your final closure report and conduct a closure inspection of the site.

Please call me at 512.239-2371 or email me at srayos@tceq.state.tx.us if you need additional information or wish to discuss the content of this letter.

Sincerely,

Sonny Rayos, P.G., Project Manager
Team I, Corrective Action Section
Remediation Division
Texas Commission on Environmental Quality
