Boerne, TX 78015-4800

Re: Affected Property Assessment Report for Area of Concern (AOC) 63 - **Approval**
Camp Stanley Storage Activity (CSSA), Boerne, TX
TCEQ Solid Waste Registration (SWR) No. 69026
EPA ID No. TX2210020739; RN100662840; CN602728206

Dear LTC Shirley:

The Texas Commission on Environmental Quality (TCEQ) received a status update request concerning AOC63 during the meeting at Camp Stanley on July 29, 2010. Herewith are TCEQ findings regarding AOC63:

1. Affected Property Assessment Report (APAR) for AOC63 was received on October 22, 2008.
2. A TCEQ letter dated February 26, 2009, commented and requested additional information pertaining to the APAR.
3. On July 29, 2009, the TCEQ conditionally approved the APAR, following receipt of Camp Stanley's letter dated May 27, 2009. The TCEQ's conditional approval was contingent on Camp Stanley's satisfactorily responding to the comments of Mr. John Wilder. The comments (contained in an InterOffice Memorandum dated February 5, 2009) pertained to his review of the Ecological Risk Assessment.
4. On August 26, 2009, an InterOffice Memorandum addressed to the undersigned stated that "Based on the screening results, the potential for risks to ecological receptors is not expected to be present, and the development of ecological PCLs is not necessary for the protection of wildlife species in the area of AOC63." A copy of this memorandum is enclosed as Enclosure

LTC Shirley

TCEQ SWR No. 69026

On the basis of Mr. Wilder's conclusion, the TCEQ acknowledges that CSSA has satisfactorily responded to his comments. Consequently, the TCEQ approves the APAR entitled *Final APAR for AOC 63* dated August, 2008. No further remediation and closure is required for AOC63. I apologize for any inconvenience this holdup may have caused.

Questions concerning this letter should be directed to my attention at 512.239.2371 or via email at srayos@tceq.state.tx.us. Thank you for your continued cooperation.

Sincerely,

Sonny Rayos, P.G., Project Manager
Team 1, VCP-CA Section
Remediation Division
Texas Commission on Environmental Quality

Texas Commission on Environmental Quality

INTEROFFICE MEMORANDUM

To: Sonny Rayos,
Corrective Action Team I
Remediation Division

Date: August 26, 2009

From: John Wilder, Technical Support Team, Remediation Division

Subject: U.S. Army Camp Stanley (CSSA), Boerne, Texas
SWR No. 69026
Review Comments: May 27, 2009 *Response to Request for Additional Information Regarding, Affected Property Assessment Report (AOC 63), dated August 2008*

As requested, ecological portions of the above-referenced document have been reviewed. The Screening Level Ecological Risk Assessment (SLERA) addendum adequately addresses the issues raised in my memo dated February 5, 2009. I concur with the SLERA conclusion that, "Based on the screening results, the potential for risk to ecological receptors is not expected to be present, and the development of ecological PCLs is not necessary for the protection of wildlife species in the area of AOC 63."

Please let me know if there are any questions.
