Attention: Mr. Jason D. Shirley, Installation Manager

Re: Approval - Release Investigation Report for Area of Concern (AOC) No. 57
        Camp Stanley Storage Activity (CSSA), Boerne, TX
        TCEQ Solid Waste Registration (SWR) No. 69026; RN 100662840; CN 602728206
        EPA ID No. TX2210020739

Dear Gabe:

The Texas Commission on Environmental Quality (TCEQ) has completed the review of the above mentioned report. AOC-57 is situated along a gravel road which was used for maintenance and storage of temporary structures. No trenches or other signs of disposal are present at the site, and no ammunition or metal debris was found at the site.

Soil sampling was conducted at the site and analyzed for VOCs, SVOCs, and metals. Based in the information provided in the report, no VOC or SVOCs were detected above their MDLs, and the metals were detected below their respective PCLs, or below the background concentrations when used as the PCLs. CSSA requests no further action for AOC 57 based on the TCEQ guidance: *Determining Which Releases are Subject to TRRP.* Based on the information contained in the report, the TCEQ accepts the no further action for AOC 57.

Questions concerning this letter should be directed to my attention at 512.239.2371 or via email at kcoulter@tceq.state.tx.us. Thank you for your continued cooperation.

Sincerely,

Kirk Coulter, P.G., Project Manager
Corrective Action Team 1, VCP-CA Section
Remediation Division
