Dear Mr. Shirley:

The Underground Injection Control (UIC) staff has completed review of the modification request dated August 29, 2011 requesting approval to change the data collection and reporting requirements for the above authorization. The following change has been made to the above Class V authorization.

Injection volumes, pressures, and concentrations of contaminants (including pH and total dissolved solids) in the injected groundwater shall be sampled quarterly at the point of reinjection (prior to fluids being released into the trenches). The concentration of contaminants in the trench bioreactor monitoring sumps and the surrounding monitoring wells shall be sampled semiannually. All monitoring and sampling data shall be submitted to the UIC Permits Team, Radioactive Materials Divisions, at mail code MC 233 on an annual basis. All other requirements of the above mentioned authorization remain in effect.

If you have any questions regarding this matter, please contact me at (512) 239-6075. If you will be corresponding by mail, please use mail code MC 233.

Sincerely,

A handwritten signature in black ink that reads "Bryan S. Smith".
