

Table 2.1 Camp Stanley Storage Activity Integrated Natural Resources Management Plan Goals

Management Program and Project ID	Goal	Priority Classification
Land and Watershed Management		
4A	Conduct a Brush Management Needs Assessment.	Compliance
4B	Provide maintenance of existing and new fuel breaks.	Compliance
4C	Conduct prescribed fire operations for grassland management.	Compliance
4D	Conduct prescribed fire operations for BCVI habitat.	Stewardship
4E	Provide mechanical treatment of vegetation for habitat management.	Stewardship
4F	Conduct brush pile burnings as needed.	Stewardship
4G	Modify mowing regimes to reduce emissions.	Compliance
4H	Identify areas needed for updated wetlands / jurisdictional waters delineations	Compliance
4I	Promote oak wilt awareness for staff, contractors, and hunters.	Stewardship
4J	Conduct oak wilt management, provided positive diagnosis of oak wilt.	Maintenance
Fish and Wildlife Management		
5A	Enhance dove and quail foraging habitat through broadcast seeding with native mix.	Stewardship
5B	Establish cool season and warm season food plots.	Stewardship
5C	Conduct deer spotlight census.	Stewardship
5D	Conduct bobwhite quail, turkey, and dove population estimates.	Stewardship
5E	Determine harvest numbers.	Stewardship
5F	Provide mammal predator control.	Stewardship
5G	Provide red imported ant control.	Stewardship
5H	Provide Brown-headed cowbird control.	Stewardship
5I	Provide European starling and grackle assessment for exclusion structures.	Stewardship
5J	Conduct electroshocking in small ponds for fish population analysis.	Stewardship
5K	Purchase fish and stock small ponds	Stewardship
Rare Species Management		
6A	Assess Black-capped vireo population trends and habitat utilization.	Compliance
6B	Assess Golden-cheeked warbler population trends and habitat utilization.	Compliance

Table 2.1 Camp Stanley Storage Activity Integrated Natural Resources Management Plan Goals (continued)

Management Program and Project ID	Goal	Priority Classification
6C	Conduct selective removal of Ashe juniper and small scale prescribed burn treatments for Black-capped vireo habitat enhancement.	Stewardship
6D	Conduct selective thinning of low stature Ashe juniper shrub vegetation on slopes for Golden-cheeked warbler habitat enhancement.	Stewardship
6E	Establishment of buffers around two known caves at CSSA.	Compliance
Outdoor Recreation		
7A	Create hunting database to track harvest goals.	Stewardship
7B	Create a fisheries database to track the health of fish population.	Stewardship
Information Management		
8A	Update the CSSA Environmental Encyclopedia with the INRMP documents and support information.	Compliance
8B	Update CSSA geographic information system (GIS) with the INRMP associated datasets.	Compliance
8C	Integrate the INRMP associated datasets with CSSA supervisory control and data acquisition (SCADA) system.	Stewardship
