 CORRECTIVE ACTION SECTION

Mr. Richard Clarke
 Chief, Industrial and Hazardous Waste Section, MC-127
 P.O. Box 13087
 Austin, Texas 78711-3087

Dear Mr. Clarke:

The enclosed data is being provided by Camp Stanley Storage Activity (CSSA) for your review. A meeting has been set up between CSSA, EPA Region VI, CSSA's Environmental Contractor (Parsons Engineering Science) and your office to discuss our B-20 Demil Site and Groundwater Evaluation. The meeting, scheduled for 10:00 a.m. on 19 and 20 October 1995 at CSSA, will provide a familiarization with these sites. It will also afford us the opportunity to present our near term planned activities to continue progress on cleaning up our sites in accordance with TNRCC Rules and Regulations and to obtain guidance from you and EPA in regards to those plans.

CSSA is providing the following information in the enclosed package:

a. B-20 Demil Site data -

Final Remedial Investigation Report for B-20 Former
 Open Burn/Open Detonation Area, June 1995
 Final Remedial Investigation Report for B-20 Former Open

Burn/Open Detonation Area Amendment to Project
 Plans, September 1995

Proposed near term actions for the B-20 site

b. Groundwater Evaluation -

Technical Memorandum on Surface Geophysical Surveys,
 Well 16 Source Characterization, June 1995

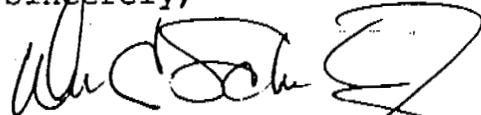

Technical Memorandum on Soil Boring investigation,
Well 16 Source Characterization, June 1995

1994-1995 Annual Groundwater Monitoring Report at
Camp Stanley Storage Activity, Texas, June 1995

Proposed near term actions for Well 16

Should there be any questions that arise prior to the
meeting, please contact our Environmental Officer, Mr. Brian
Murphy on (210) 698-5208.

Sincerely,

Dean C. Schmelling
Lieutenant Colonel, U.S. Army
