Ms. Grace Montgomery Faulkner
Chief, Waste Evaluation Section, TNRCC
P. O. Box 13087
Austin, Texas 78711-3087

Ms. Faulkner,

Per your discussions with the San Antonio Regional Office, Mr. Malcolm Ferris, Camp Stanley Storage Activity (CSSA) is providing this memorandum for your records in reference to a hazardous waste shipment from CSSA to Camp Bullis, Fort Sam Houston an interim status permitted disposal facility, TX4210020133. On 19 October 1995, Camp Bullis shipped four line items on State of Texas Manifest Number 00946450. There are several discrepancies on this manifest that need to be addressed, they are as follows:

- Sections 3 and 9 are not adequately completed. In Section 3, CSSA is located at 25800 Ralph Fair Road, Boerne, Texas 78015-4800. In Section 9 Camp Bullis is located at Camp Bullis Training Site, Camp Bullis Road, Fort Sam Houston, 78234.
- Total quantity in column 13 refers to total items instead of total weight of the products to be destroyed. Therefore, column 12, which lists number and type, is probably also inaccurate for this manifest.
- CSSA considers Column 13 to be an area for the net explosive weights (NEW) for each of the four items. The NEW for each item a. through d. were .8295, .2883, 1.3064, 1.7199, respectively. However, since there is no way to list items under one pound, items a. through c. will be listed as one pound and item d. as two pounds. The calculations for the NEW were performed by the 137th EOD Unit at Fort Sam Houston
- The Waste Number in Column I did list the EPA Waste Code but was missing a TNRCC Waste Code. CSSA at the time of the shipment did not have one. However, since this manifest was created we have submitted the proper documentation to amend our NOR to include "live" waste munitions under waste code number 4016319H.

Should there be any questions or comments regarding this memorandum please contact me at your convenience on (210) 698-5208.
