Boerne, TX 78015-4800

Re: Area of Concern 37 - Approval of No Further Action;
Camp Stanley Storage Activity, Boerne, TX;
TCEQ SWR No. 69026;
EPA ID No. TX2210020739

Dear LTC Shirley:

The Texas Commission on Environmental Quality (TCEQ) has received your letter dated October 7, 2004 written in response to TCEQ letter dated September 9, 2004. The TCEQ letter requested Camp Stanley to conduct additional soil sampling and analysis at Area of Concern (AOC) 37. Your letter indicated that previous geophysical survey and aerial photograph interpretation indicate no anomalies found at AOC 37. From historical records, there are no apparent waste management at AOC 37. In addition, previous soil sampling indicated VOCs were below the reporting limits despite soil gas surveys that indicated detects for PCE. With the information provided in your letter, you requested the TCEQ to approve a No Further Action for AOC 37. The TCEQ has reviewed your letter and the AOC 37 report submitted in June 2004. Based on our review the TCEQ approves a No Further Action for AOC 37.

Please note that it is the continuing obligation of persons associated with a site or facility to ensure that industrial solid wastes and/or municipal hazardous wastes are managed in such a way that it does not cause a discharge of wastes or an imminent threat of discharge, nor a nuisance or an endangerment to either human health or the environment as required by 30 TAC §335.4. Be advised that the burden remains upon the Camp Stanley Storage Activity to take necessary and authorized action to correct such conditions whenever they exist. In addition please note that in 30 Texas Administrative Code § 335.8(b)(5), Camp Stanley Storage Area must respond on a continuing basis (pursuant to the closure and remediation obligations of §335.8(b)) in the event that a substantial change in circumstances at the facility or area results in an unacceptable threat to human-health or the environment.

LTC Shirley

To document compliance with the Texas Professional Geoscience Act, the Remediation Division will not review reports and documents received on or after September 1, 2004 that do not contain the seal of a Texas Professional Geoscientist for geoscience services and work. Reports and documents containing geoscience information that are not stamped with a Texas Professional Geoscience seal will be returned to the submitting party. For further information, please consult the webpage of the Texas Board of Professional Geoscience at <http://www.tbpg.state.tx.us>. Any inquiry regarding what constitute geoscience information or what information requires a Professional Geoscientist seal shall be made to the Board by calling 512.936.4400, in Austin, Texas.

Questions concerning this letter should be directed to my attention at 512.239-2371 or via email at srayos@tceq.state.tx.us.

Sincerely,

Sonny Rayos, P.G., Project Manager
Team I, Corrective Action Section
Remediation Division
Texas Commission on Environmental Quality
