## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

*Protecting Texas by Reducing and Preventing Pollution*

April 26, 2013

Mr. Jason Shirley  
Installation Manager  
U.S. Army  
Camp Stanley Storage Activity  
25800 Ralph Fair Rd.  
Boerne, TX 78015

Re: Amendment of Class V Authorization  
TCEQ Authorization No. 5X2600645  
CN602728206/RN104431655  
Camp Stanley Storage Activity  
25800 Ralph Fair Rd.  
Boerne, TX 78015

Dear Mr. Shirley:

The Underground Injection Control (UIC) staff has completed review of the amendment request submitted by Parsons dated March 29, 2013 and amended April 3, 2013 requesting approval for the addition of ten injection wells (four new and six converted piezometers) for the injection of sodium hydroxide and sodium persulphate (ISCO chemical mix) mixed with potable water. Based on our review, approval is hereby given for the construction and operation of the injection wells according to the submitted plans and specifications for this site. This authorization relates only to injection activities and not the adequacy or appropriateness of site remediation. Any additional injection activities shall be submitted as an amendment and approved prior to implementation. This amendment authorization relates only to the addition of the ten injection wells. All other requirements stated in the original authorization letter dated March 13, 2012 remain in effect.

If you have any questions or comments regarding this matter please contact me at [bryan.smith@tceq.texas.gov](mailto:bryan.smith@tceq.texas.gov) or (512) 239-6075. If you will be responding by letter, please include mail code MC 233 in the mailing address.

Sincerely,

A handwritten signature in black ink, appearing to read "Bryan S. Smith".

Bryan S. Smith, Project Manager  
Underground Injection Control Permits Team  
Radioactive Materials Division  
Texas Commission on Environmental Quality
