Re: Camp Stanley Storage Activity, Boerne, TX;
TCEQ SWR No. 69026;
EPA ID No. TX2210020739;
SWMU B-30 - Closure Approval to RRS No. 1

Dear LTC Shirley:

The Texas Commission on Environmental Quality (TCEQ) has received the reported entitled *Final Solid Waste Management Unit (SWMU) B-30 Closure Report* dated August 2004. The TCEQ received the report on September 27, 2004. Excavation of waste and waste residues at SWMU B-30 was conducted from November 2003 to May 2004. Approximately 1,700 cubic yards of soil and contaminated materials were removed and subsequently disposed off-site. The report indicated that closure of SWMU B-30 was conducted according to Risk Reduction Standard (RRS) No. 1 pursuant to Title 30 Texas Administrative Code (TAC) Chapter 335 Subchapters A and S.

In order to attain RRS No. 1, all industrial solid waste and municipal hazardous waste and waste residues must be removed or decontaminated from affected media (i.e., soil, surface water, groundwater, air) to naturally occurring background levels or the Practical Quantitation Limits (PQL), provided that the person demonstrates that lower quantitation limits are not possible when PQLs are greater than background.

The TCEQ has completed a review of the above-stated report. Based on the information contained in the final report, it appears that cleanup at SWMU B-30 has attained RRS No. 1. SWMU B-30 is released from deed recordation and post-closure care requirements.

Please be aware that it is the continuing obligation of persons associated with a site to ensure that municipal hazardous waste and industrial solid waste are managed in a manner which does not cause the discharge or imminent threat of discharge of waste into or adjacent to waters in the state, a

nuisance, or the endangerment of the public health and welfare as required by 30 TAC §335.4. If actual closure fails to comply with these requirements, the burden remains upon Camp Stanley Storage Activity to take any necessary and authorized action to correct such conditions. A TCEQ Region 13 San Antonio field inspector may review the final closure report for SWMU B-30 and conduct a closure inspection of the site.

Questions concerning this letter should be directed to my attention at 512.239.2371 or via email at srayos@tceq.state.tx.us.

Sincerely,

Sonny Rayos, P.G., Project Manager
