Dear Mr. Lyssy:

In accordance with CSSA's 3008(H) Order requirements, Parsons Engineering Science (Parsons ES) is providing this notification of planned field activities at CSSA July 26 through August 7, 1999. Geophysical surveys of Areas of Concern (AOC) 47, 48, 56, 58, and 61 are planned for this period. These surveys will be conducted with an EM-61 geophysical instrument. Results will be used to determine if any subsurface geophysical anomalies, such as trenches or buried waste, exist at the site.

If you have any questions or comments, please call Brian Murphy of CSSA at (210)698-5208 or myself at (512)719-6062.

Sincerely,

  
Julie Burdey  
Project Manager
