Dear Mr. Lyssy:

In accordance with CSSA's 3008(H) Order requirements, Parsons is providing this notification of planned field activities at CSSA September 8th through 18th, 2015. These dates are subject to slight change depending on the schedule for the ISCO injection at AOC-65. The groundwater sampling will be completed in September. Groundwater sampling of on-post wells at CSSA, as well as sampling of approximately 7 off-post wells will be conducted during this period. All samples will be analyzed for VOCs and on-post samples will also be analyzed for selected metals.

If you have any questions or comments, please call Ron Almeter at (210) 336-2372 or Joni Young at (210) 336-0103 of CSSA, or myself at (512) 719-6062.
