RE: *RCRA Corrective Measures Implementation Program Plan*
Camp Stanley Storage Activity, Boerne, Texas

Dear Mr. Shirley:

The RCRA Corrective Measures Implementation Program Plan (*CMIPP*), dated November 5, 2015, for Camp Stanley Storage Activity (CSSA) has been reviewed by the U.S. EPA (EPA) in accordance with the final Resource Conservation and Recovery Act (RCRA) § 3008(h) Administrative Order on Consent for CSSA, (Order) Docket No. RCRA-VI 002(h)99-H FY99, dated May 5, 1999.

The CMIPP consists of two parts: the Program Management Plan (PMP) and the Community Relations Plan (CRP). The purpose of the PMP is to document the overall management strategy for the design, construction, operation, maintenance, and monitoring of the corrective measures specified in the EPA Statement of Basis, as approved in the EPA Final Decision Document. The purpose of the CMP is to document how Site-related remediation information will be disseminated to the public.

The CMIPP meets the objectives and requirements of the Order and is hereby approved. Please note that the CRP is dynamic document, and may need to be updated as the community needs change over time.
