Subject: Quarterly Groundwater Monitoring at CSSA
Notification of groundwater monitoring activities
TCEQ Solid Waste Registration Number 69026
EPA Identification Number: TXD2210020739
Parsons job # 110201

Dear Mr. Lyssy:

In accordance with CSSA's 3008(H) Order requirements, Parsons is providing this notification of planned field activities at CSSA December 2nd through 27th, 2019. Groundwater sampling of on-post wells at CSSA, as well as sampling of approximately 13 off-post wells, will be conducted during this period. All samples will be analyzed for VOCs and on-post drinking water system wells will also be analyzed for selected metals, in accordance with the 2015 Data Quality Objectives for Groundwater Monitoring, approved by USEPA on May 5, 2016 and by TCEQ on April 22, 2016. Groundwater monitoring performed during this event will incorporate the maximum number of wells in the groundwater monitoring network, and data from both groundwater monitoring and Corrective Measures wells at Plumes 1 and 2 will be evaluated ahead of the five-year review in July, 2020.

If you have any questions or comments, please call Margarita Loya of CSSA at (210) 295-7067 of CSSA or myself at (512) 719-6062.

Sincerely,

Julie Burdey, P.G.
Project Manager

PARSONS
