Dear Mr. Lyssy:

In accordance with CSSA's 3008(H) Order requirements, Parsons is providing this notification of planned field activities at CSSA September 2nd through 25th, 2020. Groundwater sampling of on-post wells at CSSA, as well as sampling of approximately 6 off-post wells, will be conducted during this period. All samples will be analyzed for VOCs and on-post drinking water system wells will also be analyzed for selected metals, in accordance with the 2015 Data Quality Objectives for Groundwater Monitoring, approved by USEPA on May 5, 2016 and by TCEQ on April 22, 2016. If written approval for the 2020 DQO and LTMO updates is received from the you and TCEQ, the updated schedule will be implemented in September.
