SUBJECT: Sampling of Water Wells:
RFR-3, Located on 27805 Ralph Fair Road;
RFR-4, Located on 27805 Ralph Fair Road;
RFR-5, Located on 28015 Ralph Fair Road

Dear [REDACTED]

Camp Stanley Storage Activity (CSSA) collected groundwater samples from your wells (RFR-3, RFR-4, and RFR-5) on 6/2/11. These samples were submitted to a laboratory contracted by CSSA's environmental contractor for volatile organic compound (VOC) analysis. This letter provides you with the VOC data from the laboratory results and a formal thank you for your assistance in this groundwater monitoring effort.

Based on the analytical data, no VOCs related to CSSA's groundwater investigation were identified in the water samples from your wells. Results from the laboratory analysis are provided as an attachment for the above sampling event.

As part of the ongoing CSSA environmental program, we are continuing to investigate and cleanup VOC source areas on the installation and to track these compounds in groundwater on- and off-post. As part of this effort, your wells are scheduled to be sampled again in March 2012.

Again, we would like to thank you for your cooperation. We remain committed to making sure your water is safe to use and keeping you informed. If you have any questions concerning this letter, please contact Gabriel Moreno-Fergusson, Environmental Program Manager, at (210) 698-5208.

Sincerely,

Jason D. Shirley
Installation Manager
