SUBJECT: Sampling of Water Well I10-2, Located at 25300 IH-10 West
Dear

Camp Stanley Storage Activity (CSSA) collected a groundwater sample from the above listed well (I10-2) on $6 / 4 / 14$. This sample was submitted to a laboratory contracted by CSSA's environmental contractor for volatile organic compound (VOC) analysis. This letter provides you with the VOC data from the laboratory results and a formal thank you for your assistance in this groundwater monitoring effort.

Based on the analytical data, no VOCs related to CSSA's groundwater investigation were identified in the water samples from your well. Results from the laboratory analysis are provided as an attachment for the above sampling event.

As part of the ongoing CSSA environmental program, we are continuing to investigate and cleanup VOC source areas on the installation and to track these compounds in groundwater on- and off-post. As part of this effort, your well is scheduled to be sampled again in March 2015.

Again, we would like to thank you for your cooperation. We remain committed to making sure your water is safe to use and keeping you informed. If you have any questions concerning this letter, please contact Gabriel Moreno-Fergusson, Environmental Program Manager, at (210) 2957014.

Sincerely,

## Enclosure

cc: Mr. Greg Lyssy, EPA Region 6
Mr. Michael Kuitu, TCEQ Central Office
Mr. Jorge Salazar, TCEQ Region 13
Ms. Kyle Cunningham, San Antonio Metropolitan Health Dist.
Ms. Julie Burdey, Parsons

Qualifiers for laboratory data report:
U - The analyte was analyzed for, but not detected. The associated numerical value is at or below the laboratory method detection limit (MDL).
F - Indicates the value is above the laboratory method detection limit (MDL), but below the laboratory reporting limit (RL) for the compound.

## Abbreviations:

MDL - method detection limit
RL - reporting limit
DCE - Dichloroethene
TCE - Trichloroethene
