U-040-18

SUBJECT: Integrated Natural Resources Management Plan Five-Year Update (2018-2022), U.S. Army Camp Stanley Storage Activity, Boerne, Bexar County, Texas

Mr. Adam Zerrenner, Field Supervisor
U.S. Fish and Wildlife Service
10711 Burnet Road, Suite 200
Austin, Texas 787582

Dear Mr. Zerrenner:

Camp Stanley Storage Activity (CSSA) is submitting this Five-Year Update to the Integrated Natural Resources Management Plan (INRMP) which was originally approved on April 15, 2013 and updated in February 2017. One electronic copy is attached to this email, as well as a redline copy showing revisions since the February 2017 version.

The INRMP review and update was accomplished in accordance with the Sikes Act, as amended (16 U.S.C. 670a-670f); the Memorandum of Understanding (MOU) between the U.S. Department of Defense, U.S. Fish and Wildlife Service, and the Association of Fish and Wildlife Management Agencies for a Cooperative Integrated Natural Resource Management Program on Military Installations (July 29, 2013); and the Mutual Department of Defense and U.S. Fish and Wildlife Service Guidelines for Streamlined Review of Integrated Natural Resources Management Plan Updates (July 20, 2015, <http://www.dodnaturalresources.net/Streamlined> Sikes guidance and memo - signed 7-20-15.pdf). The MOU defines an INRMP update as "Any change to an INRMP that, if implemented, is not expected to result in consequences materially different from those in the existing INRMP and analyzed in an existing National Environmental Policy Act document. Such changes will not result in a significant environmental impact, and installations are not required to invite the public to review or to comment on the decision to continue implementing the updated INRMP."

Please contact the Environmental manager, Felicia Krintz, at (210) 295-7067 if you have any questions or comments and submit any comments to both CSSA and to Julie Burdey, Parsons, 9101 Burnet Road, Ste 210, Austin, TX 78758.

Sincerely,

Jason D. Shirley
Installation Manager
