U-065-20

SUBJECT: Sampling of Water Well OFR-3, Located at 25617 Old Fredericksburg Road

[REDACTED]
[REDACTED]
Boerne, TX 78015-6581

Dear [REDACTED]

Camp Stanley Storage Activity (CSSA) collected groundwater samples from your well (OFR-3) on 9/8/20 and 10/14/20. These samples were submitted to a laboratory contracted by CSSA's environmental contractor for volatile organic compound (VOC) analysis. This letter provides you with the VOC data from the laboratory results and a formal thank you for your assistance in this groundwater monitoring effort.

An abbreviated summary of analytical results compared to maximum contaminant levels (MCLs) allowed in drinking water by the U.S. EPA under the Safe Drinking Water Act is provided below:

Date Sampled	VOC Compound	Result (ppb)	MCL (ppb)
Well OFR-3, located at 25617 Old Fredericksburg Road			
9/8/20	Tetrachloroethene (PCE)	4.05	5
	Trichloroethene (TCE)	1.88	5
	cis-1,2-Dichloroethene (DCE)	<0.07 (non-detect)	70

Based on the analytical data, levels of the VOCs TCE and PCE were identified in the water sample from your well before granular activated carbon (GAC) filtration. Results from the laboratory analysis are provided as an attachment for the above sampling event. The concentrations reported for the VOCs PCE and TCE were above the MCL in the past. Therefore, a filtration system was installed on your well.

Evoqua Water Technologies of Houston, Texas provides maintenance for the filtration system on your well. The system will remain in operation for the foreseeable future or until significant reductions in contamination levels are seen in the water in your well before it enters the filtration system. CSSA will continue to be responsible for all costs associated with operation and maintenance of this system. CSSA will continue to

send a representative every three weeks to exchange the five-micron pre-and post-filters in the system.

Evoqua exchanged the first carbon canister and performed other routine maintenance on your system October 13, 2020. If you experience any problems with the system, please let the installer or CSSA know immediately. Evoqua is very responsive and can make additional maintenance visits if needed.

On 9/8/20, CSSA collected a sample from your well OFR-3 after the water was processed through the granular activated carbon (GAC) filter system. An additional sample was collected 10/14/20 after Evoqua performed the carbon exchange service on 10/13/20. These samples are representative of the water being delivered to you for daily use. Based on the analytical data, no VOCs related to CSSA's groundwater investigation were identified in the samples after the second carbon canister (A2). A summary of the post-GAC analytical results is provided below. Copies of the laboratory data sheets are attached. CSSA will collect additional confirmation samples on a 6-month basis to confirm the system remains effective.

Date Sample	VOC compound	Result (ppb)	MCL (ppb)
OFR-3-A2, located at 25617 Old Fredericksburg Road			
9/8/20	PCE	<0.06 (non-detect)	5
	TCE	<0.05 (non-detect)	5
	<i>cis</i> -1,2-DCE	<0.07 (non-detect)	70
OFR-3-A2, located at 25617 Old Fredericksburg Road			
10/14/20	PCE	<0.06 (non-detect)	5
	TCE	<0.05 (non-detect)	5
	<i>cis</i> -1,2-DCE	<0.07 (non-detect)	70
OFR-3-A2, field duplicate			
10/14/20	PCE	<0.06 (non-detect)	5
	TCE	<0.05 (non-detect)	5
	<i>cis</i> -1,2-DCE	<0.07 (non-detect)	70

As part of the ongoing CSSA environmental program, we are continuing to investigate and cleanup VOC source areas on the installation and to track these compounds in groundwater on- and off-post. As part of this effort, your well is scheduled to be sampled again in December 2020.

Again, we would like to thank you for your cooperation. We regret that your well has been impacted but remain committed to making sure your water is safe to use and keeping you informed.

If you have any questions concerning this letter, please contact Margarita Loya, Environmental Program Manager, at (210) 295-7067.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Glenn Moore". The signature is written in a cursive, slightly stylized font.
