Dear LTC Shirley:

The Texas Commission on Environmental Quality (TCEQ) received the report entitled *Final June 2005 Off-Post Quarterly Groundwater Monitoring Report*, dated December 2005. The report was received on December 30, 2005. The report included laboratory analytical results collected from off-post drinking water and monitoring wells during the June 6 through 16, 2005 sampling events. Groundwater and drinking water samples from off-post wells were collected at following areas: Fair Oaks, Hidden Springs Estates, I-10, Jackson Woods Subdivision, Leon Springs Villa area, Old Fredericksburg Road and Ralph Fair Road. Of the 32 wells sampled, RFR-10 is the only well that contained concentrations of PCE and TCE that are greater than the Maximum Concentration Levels. These concentrations are 17.6 ppb and 8.1 ppb, respectively. The report specified that CSSA's Data Quality Objectives were attained.

The TCEQ has completed its review and approves the report. The recommendations as specified on Page 21 of the report are likewise approved.
