Attention: Mr. Jason D. Shirley, Installation Manager

Re: Approval - Release Investigation Report for Solis Waste Management Unit (SWMU) B-15/16  
Camp Stanley Storage Activity (CSSA), Boerne, TX  
TCEQ Solid Waste Registration (SWR) No. 69026  
EPA ID No. TX2210020739; RN 100662840; CN 602728206

Dear Mr. Shirley:

The Texas Commission on Environmental Quality (TCEQ) has completed the review of the above mentioned report. SWMUs B15/16 were used as a landfill for the disposal of target vehicles and weapons mounts. The contaminants identified above the soil background concentrations were barium, chromium, copper, and zinc. The waste material and soil from the trenches containing contaminants above the Tier 1 Protective Concentration Levels (PCLs) were removed and properly disposed.

According to the report, confirmation sample taken shows no remaining metals concentrations above the residential PCLs. Remediation was completed according to the TCEQ guidance: *Determining Which Releases are Subject to TRRP*. CSSA requests a "No Further Action" for SWMUs B15/16. On the basis of information contained in the report, the TCEQ accepts the no further action for SWMUs B15/16.

Questions concerning this letter should be directed to my attention at 512.239.2371 or via email at [kcoulter@tceq.state.tx.us](mailto:kcoulter@tceq.state.tx.us). Thank you for your continued cooperation.

Sincerely,

A handwritten signature in blue ink that reads "Kirk Coulter".

Kirk Coulter, P.G., Project Manager  
Corrective Action Team 1, VCP/CA Section  
Remediation Division
