Dear Mr. Shirley:

The Texas Commission on Environmental Quality (TCEQ) has completed the review of the above mentioned report. AOC-70 consists of a small concrete building formerly used as a pesticide storage area. No trenches or any other signs of disposal are present at the site, and no ammunition or metal debris were found at the site.

Remediation was completed according to the TCEQ guidance: *Determining Which Releases are Subject to TRRP*. CSSA requests a "No Further Action" for AOC 70. On the basis of information contained in the report, the TCEQ accepts the no further action for AOC 70.

Questions concerning this letter should be directed to my attention at 512.239.2371 or via email at kcoulter@tceq.state.tx.us. Thank you for your continued cooperation.

Sincerely,
