Re: Approval - Release Investigation Report for Range Management Unit No.2  
(RMU-2), dated November 2011  
Camp Stanley Storage Activity (CSSA), Boerne, TX  
TCEQ Solid Waste Registration (SWR) No. 69026; RN 100662840; CN  
602728206  
EPA ID No. TX2210020739

Dear Mr. Shirley:

The Texas Commission on Environmental Quality (TCEQ) has completed the review of the above mentioned report. RMU-2 was a small pistol range from the 1960s through the 1980s, covering approximately 1.1 acres in size. Four rounds of excavation, removal and confirmation sampling was conducted at the site covering approximately 2.3 acres in size. Over 6,490 cubic yards of contaminated soil was excavated and properly disposed of.

Based on the final confirmation sampling, no metals were detected above their respective PCLs or the calculated 95% UCL for lead. CSSA requests no further action for RMU-2. Based on the information contained in the report, the TCEQ accepts the no further action for RMU-2.

CSSA currently has approximately 88 on-site and off-site groundwater monitoring wells monitoring two chlorinated solvent plumes which originated from two sources not related to RMU-2.
