Re: Approval - Release Investigation Report for Range Management Unit No.3 (RMU-3),
dated May 2013
Camp Stanley Storage Activity (CSSA), Boerne, TX
TCEQ Solid Waste Registration (SWR) No. 69026; RN 100662840; CN 602728206
EPA ID No. TX2210020739

Dear Mr. Shirley:

The Texas Commission on Environmental Quality (TCEQ) has completed the review of the above referenced report. RMU-3 was a rifle range from the 1940's through the 1950's, covering approximately 3.2 acres in size. Approximately 4,000 cubic yards of soil were excavated from the site, and confirmation samples were taken within the footprint of the excavation. Soil that was found to be above the Tier 1 PCLs was excavated and removed. There was no impact to the groundwater, surface water, or sediment from RMU-3. RMU-3 also passes the tier 1 Ecological Exclusion Criteria Checklist.

According to the report, remediation was completed according to the TCEQ guidance: *Determining Which Releases are Subject to TRRP*. CSSA requests a "No Further Action" for RMU-3. On the basis of information contained in the report, the TCEQ accepts the no further action for RMU-3.

CSSA currently has approximately 88 on-site and off-site groundwater monitoring wells monitoring two chlorinated solvent plumes which originated from two sources not related to RMU-3.

Questions concerning this letter should be directed to my attention at 512.239-2572 or via email at kirk.coulter@tceq.texas.gov. Thank you for your continued cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read "Kirk Coulter".

Kirk Coulter, P.G., Project Manager
