SUBJECT: Site Name: Camp Stanley Storage Activity Solid Waste Registration (SWR) No. 69026, Report Name: *Affected Property Assessment Report for Solid Waste Management Unit B-2*

Mr. Timothy Brown
Mail Code 127, Bldg D
12100 Park 35 Circle
Austin, TX 78753

Dear Mr. Brown:

Enclosed is one hard copy and one electronic copy of the Affected Property Assessment Report (APAR) for Solid Waste Management Unit B-2 (SWMU B-2) for Camp Stanley Storage Activity (CSSA) Solid Waste Registration (SWR) No. 69026. This APAR has been prepared to document the results of work completed at SWMU B-2 and to request a no further action (NFA) decision for munitions constituents (MC) in soil at the site.

In 2019, CSSA secured funding to investigate sites with historical soil contamination that are not yet closed under Texas Commission on Environmental Quality (TCEQ) rules. SWMU B-2 was identified as a candidate for closure for MC contamination in soil. Much of the site is outside the active range ricochet area and therefore, contamination from range activities is expected to be insignificant and is not expected to impact SWMU B-2 in the future. Geophysical surface sweeps will be conducted to address any remaining munitions debris at SWMU B-2 and other sites adjacent to the ricochet area following range closure.

I certify that the information contained in and accompanying this submission is true, accurate, and complete to the best of my knowledge and information. As to those portions of this submission for which I cannot personally verify the truth and accuracy, I certify as the Facility Official having supervisory responsibility for the person(s) who, acting upon my direct instructions, made the verification, that this information is true, accurate, and complete.

If you have any questions or comments, please call Margarita Loya, CSSA Environmental Program Manager at (210) 295-7067 or Julie Burdey of Parsons at (512) 719-6062.

Sincerely,

Jason D. Shirley
Installation Manager
