Table presents all laboratory results for analytes detected above the reporting limits. Samples were analyzed by Columbia Analytical Services, Redding, California, and Severn Trent Laboratories, Corpus Christi, Texas (TPH analyses). Results from all laboratory analyses are presented in Appendix A. The Data Quality Summary Report is included in Appendix B.

1.31 Bold/shaded indicates analyte concentration exceeds CSSA background concentration.
 F Analyte positively identified; value is below reporting limit.
 NA Not analyzed
 U Analyte not detected at or above the reporting limit.
