Mr. Guy L. Tidmore
Chief, Texas Section (6H-CT)
RCRA Enforcement Branch
U.S. Environmental Protection Agency
1445 Ross Avenue, Suite 1200
Dallas, Texas 75202-2733

INDUSTRIAL & HAZARDOUS
WASTE ENFORCEMENT SECTION
16 1994

Dear Mr. Tidmore:

Reference your letter dated 13 January 1994, Subject:
Approval of Request for a Time Extension for Revision of the
Closure Plan for the B-20 Open Burning/Open Detonation Unit, Camp
Stanley Storage Activity (CSSA), Boerne, Texas; Docket Number V-
310-H; EPA I.D. Number TX2210020739.

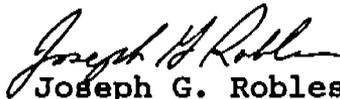

As we discussed with your staff during the week of 28 Feb 94,
we request the March 21, 1994, due date for the revised B-20
Closure Plan be extended to April 4, 1994, to provide our
contractor, Engineering- Science, Inc., additional time to
incorporate the analytical results of the preliminary soil and
water samples taken from the site on January 26 & 27, 1994.
Also, our contractor requires time to include the cost data and
other new information required by your 13 January letter.
Finally, once we receive the draft plan from our contractor, Camp
Stanley will require a short time to review and coordinate the
plan with appropriate Army elements prior to finalization of the
report and submission to your office.

It is our desire to furnish your office and TNRCC a
comprehensive revised closure plan that meets all of the
requirements mentioned in your letter, verbal discussions with
your staff, and appropriate regulations. We hope that the
additional effort which we have expended will result in your
favorable review of the plan and an early authorization to
proceed with closure of the B-20 site.

03/21/94 Susan Roberts - Engr. Science
719-6051

Please contact me at (210) 221-7416, or Paul Oliver at (210) 221-7473, if you require additional information concerning this request.

Sincerely,

Joseph G. Robles
Lieutenant Colonel, U.S. Army
Commanding Officer
