~~TNRCC Solid Waste Registration No. 69026, / EPA ID No. TX2210020739~~
Approval of Sampling Plan for Evaluation of Background Metals

Dear Colonel Schmelling:

The Texas Natural Resource Conservation Commission (TNRCC) has reviewed a document entitled "*Sampling Plan for Evaluation of Background Metals Levels in Soil Types at CSSA*" submitted by Julie Burdey of Parsons Engineering Science, Inc. The plan describes facility-wide background sampling to be conducted for determining Risk Reduction Standard No. 1 closure criteria. The sampling results will be used to establish background levels as comparison criteria for future closure of individual solid waste management units at your facility, including the B-20 Detonation Area which is a hazardous waste management unit.

The TNRCC hereby approves the sampling plan dated January 1996. If you have any questions please contact Luis Campos of the Closure Team in Austin at (512)239-2369, Mail Code MC-127.

Sincerely,

A handwritten signature in cursive script, appearing to read "Richard Clarke".

Richard Clarke, Program Manager
Closure Team, Corrective Action Section
Industrial and Hazardous Waste Division
