Dear Mr. Boultinghouse:

On behalf of our client, Camp Stanley Storage Activity (CSSA), this letter is in response to your letter of October 30, 1998, regarding the recycling activity of waste 10143191. The description of waste 10143191 should be changed to *spent fluorescent lights*. According to the Defense Reutilization and Maintenance Organization (DRMO), which coordinates transportation and recycling of the recyclable material for CSSA, the waste was properly classified as nonhazardous. CSSA is correcting their generator status to *nonindustrial*, therefore tracking class 1 wastes is no longer required.

If you have any questions or comments please contact me at 512/719-6086 or Brian Murphy (CSSA Environmental Officer) at 210/698-5208.

Sincerely,

Teresa J. Anderson
Task Manager
