

Legend

- Well
- Open Borehole Completion
- 1098 Static Water Level
- Measuring Point of Hydraulic Head
- 1078 Static Water Level
- Slotted Well Completion
- Lower Glen Rose Water Level
- Bexar Shale Water Level
- Cow Creek Water Level

- Notes:**
- Well CS-MWG-LGR is an open borehole. Surface casing extends to 1170 ft MSL.
 - No static water level was acquired in well CS-MW9-CC during June 2003 sampling event due to transducer malfunction.
 - Highly discordant static water level from well CS-MW6-BS was not used to construct this flow net.
