

Legend

- Well
- Open Borehole Completion
- Static Water Level (1098)
- Measuring Point of Hydraulic Head
- Static Water Level (1078)
- Slotted Well Completion
- Lower Glen Rose Water Level
- Bexar Shale Water Level

Notes:

1. Well CS-MWG-LGR is an open borehole. Surface casing extends to 1170 ft MSL.
2. No static water level was measured in well CS-MW16-CC in June 2003 since this well had just been completed.
