Number of wells screened in each formation.				<b>20</b>	<b>4</b>	<b>7</b>	
Average groundwater elevation in each formation given in feet				1135.18	1140.52	1122.95	
Notes:							
Average groundwater elevations in each formation are calculated from wells screened in only one formation.							
CS-1, CS-9, CS-10, and CS-11 are open boreholes across the LGR, BS, and CC formations and are not included in average groundwater elevation calculations. These wells are current and former drinking water wells.							
Wells CS-2 and CS-4 are open boreholes across more than one formation and are not included in average water level calculations.							
NS = Not surveyed yet							
?=Exact screening information unknown for this well.
