Average groundwater elevation change (all wells)			<b>-8.05</b>			
Average groundwater elevation change in each formation				<b>-15.06</b>	<b>8.32</b>	<b>0.40</b>
Notes:						
Average groundwater elevation change is calculated from wells screened in only one formation.						
Bold wells: CS-1, CS-2, CS-4, CS-9, CS-10, CS-11 and FO-20 are open boreholes across more than one of the formations and are not included in average groundwater elevation calculations. CS-1, CS-9, CS-10 and CS-11 are current and former drinking water wells. FO-20 is a public drinking water well.						
NA = Data not available						
?=Exact screening information unknown for this well.						
All measurements given in feet.
